

National Seminar

on

“Future of Basic Sciences - where we are heading to” 15-16 October, 2018

organized by

**Faculty Development Centre (HRDC - UGC)
Guru Nanak Dev University, Amritsar**

Invited Speaker

1. Prof. Uday Maitra
IISc, Bangalore
2. Prof. Prasad V. Bharatam
NIPER, Mohali
3. Prof. S. S. Kanwar
HPU, Shimla
4. Prof. Kamal K. Kapoor,
Jammu University,
Jammu
5. Prof. Atul Khanna,
GNDU, Amritsar

Prof. Jatinder Singh
Director-HRDC
96461-58007 (M)

Prof. S. S. Chimni
(Coordinator)
94174-38845 (M)

“Basic science is an investment in long term future without obvious short term gain”.

Basic science research is considered to be performed without thought of practical ends and the scientists involved in basic science research may not be at all interested in practical applications of his/her work. The practitioners of basic science research are involved in creating new knowledge and ideas which constitutes specific capital from the practical application of knowledge” can be drawn. It has proven over time that basic science research acts as a pacemaker of technological advancement since many of the most important discoveries have come as a result of experiments undertaken for a very different purpose. With increasing emphasis on practical applications and technological developments it is pertinent at this juncture to delve on the **‘Future of the Basic Sciences’**.

The participants in the present seminar will deliberate on the theme of the seminar.

**For on line registration for seminar, please visit our website www.hrdc.gndu.org.
The registration fee has been waived off for all participants.**

Travelling allowance will be reimbursed to the teaching faculty as per UGC guidelines. Free boarding & lodging will also be provided for the duration of the workshop.
